SUPERVISOR COMMENTS

The shift was pretty steady throughout the day, for being a Sunday. When not responding to calls, officers used the time to catch up on reports. Officers made a traffic stop for expired registration and found the driver also had a suspended license. He was arrested and cited for the violations. Later in the shift officers responded to a possible burglary in progress. A

UAV was flown and they located a subject running away from the location. With the use of the UAV, the subject was located and arrested. We were able to link the suspect to a stolen vehicle that was located at the scene. The UAV was instrumental in the chase and capture of the subject.
